- PHOTOS: (1) 3 x 4" H (4) 2 x 2"
- This layout would accommodate additional or alternate sized photos
- Alphas and Embellishments

NOTES; _____

Instructions:

- 12 x 12" CS base
- My final strip width for all pieces is 1 1/2 x 12" ... yours may differ depending on the size of your border punches
- Using the (2) same PP strips, punch the bottom of each 2 x 12" piece with the same punch.
- Using the (6) remaining different PP pcs. punch the bottom of each using different punches
- Alternatively, you could use sticker strips, washi tape or straight edged PP pieces
- Adhere one of the two SAME pcs. at the bottom of your base 1/2" up from bottom edge
- Layer each strip until you get to the top using the same piece as the first !
- Be sure to not adhere the punches part so that you can tuck your photos underneath as shown
- Mat all photos and adhere as desired. I raised the 3 x 4" photo and left the others flat.
- Title and Embellish as desired
